

This World AIDS Day,
remember that globally...

Young people ages 15-24 represent 45 percent of all new HIV infections.

#1

HIV/AIDS is the leading cause of death for women ages 15-44.

3,500
x 365

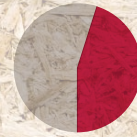

Almost 3,500 young people ages 15 to 24 are infected with HIV each day.

12.1.09
